

DOWNTOWN TUCSON DEVELOPMENT REPORT

Summer 2017

DOWNTOWN TUCSON DEVELOPMENT OUTLOOK **SUMMER 2017**

30
DEVELOPMENT
PROJECTS

There are 30 projects under construction or proposed—including hotels, apartments, commercial space, parks, and roadway improvements.

1,400
NEW
HOMES

More than 1,400 new homes are proposed or under construction to be built in the Downtown area over the next two years.

750,000 FT²
COMMERCIAL
SPACE

New development projects will create more than 750,000 square feet of combined retail, office, restaurant, and event space.

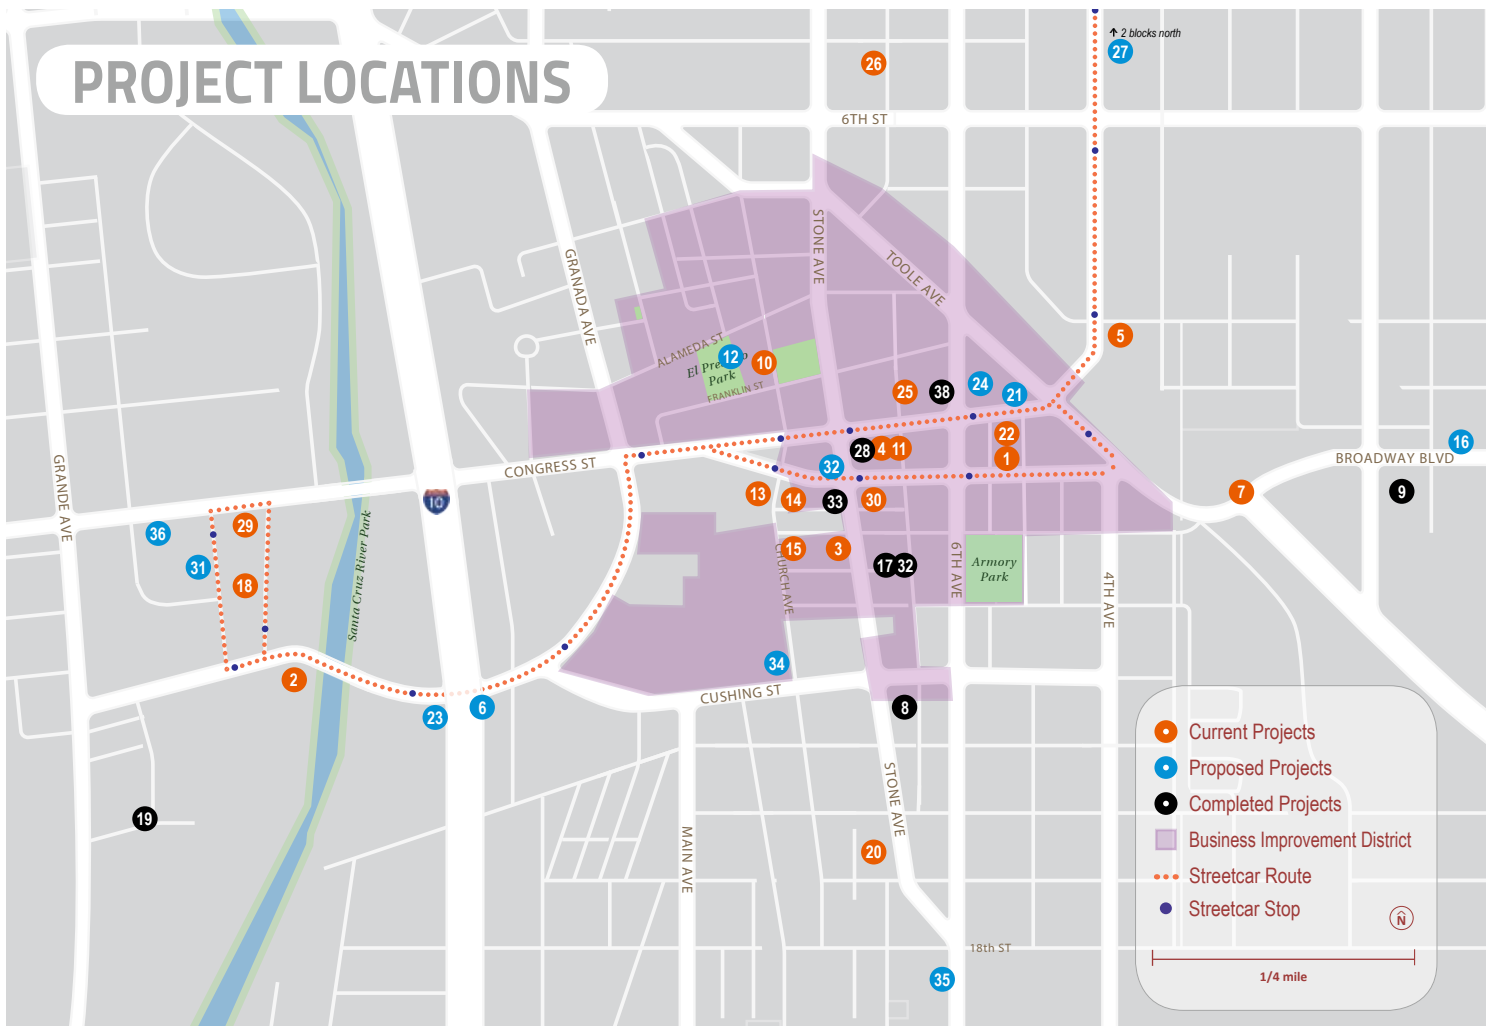

1,000
JOBS
CREATED

More than 1,000 permanent full-time jobs will be created in addition to hundreds of part time jobs and temporary construction jobs.

525M
TOTAL
INVESTMENT

There are over \$525 million in projects that are under construction or planned to start construction within the next two years.

CURRENT PROJECTS

On Map	Project Name	Location	Type	Developer	Status	Cost (millions)	Housing Units	Comm. Sq Ft	Jobs Created
1	AC Hotel Tucson by Marriott	151 E Broadway Blvd	Hotel; Parking garage	Tucson Urban & North Face Investments	Near completion; Grand Opening set for September 1	\$32	-	6,000	220
2	Caterpillar HQ	W Cushing St	Company HQ offices; Parking garage	Rio Nuevo	Site excavation & remediation underway; Completion March 2019	\$50	-	150,000	650
3	Diocesan Complex at Cathedral Square	192 S Stone Ave	Offices; Event center	Catholic Diocese of Tucson	Demolition of existing site complete; Dome stored across street	\$12	-	-	-
4, 11	City Park/ Indian Trading Post Village	40-60 E Congress St	Food hall, retail, entertainment, & office lofts	Bourn Companies	Construction underway; Completion 2QTR 2018	\$16.8	-	99,000	200

DOWNTOWN TUCSON DEVELOPMENT UPDATE SUMMER 2017

1

AC HOTEL TUCSON BY MARRIOTT

This new, eight-story, European-style hotel will be Downtown's first hotel in more than 40 years. It will feature 136 rooms, a rooftop pool, a restaurant, a 200-space public parking garage, and nearly 6,000 square feet of retail space. The grand opening is scheduled for September 1.

2

CATERPILLAR HEADQUARTERS

West of I-10 near the base of "A" Mountain, Caterpillar's new 150,000-square-foot building will house more than 600 employees. Landfill excavation is underway and will take about four months. Construction is slated to start late this year and is expected to be completed in summer 2019.

3

DIOCESAN COMPLEX AT CATHEDRAL SQUARE

St. Augustine Cathedral's parish hall has been demolished and is being replaced with a four-story building to serve as the new parish offices, and a 500-seat conference and education center. Demolition of the old parish hall is complete, and construction is underway. The metal dome structure from the old site will be reused and is being stored across the street.

4

CITY PARK

Bourn Companies is developing a five-story building that will create over 99,000 square feet of new commercial space—including two levels of loft office space and three levels of retail space. The project will feature Tucson's first food hall, boutique bowling, and event and entertainment space, both indoor and outdoor. It will be the new office location for more than 120 Hexagon Mining employees. The construction is estimated to be completed in spring 2018.

5

THE CORONADO APARTMENTS

The historic Coronado Hotel at the corner of Fourth Ave and Ninth St will soon become 30 apartments. Developed by Carbon Cabo LLC and designed by Rob Paulus Architects, the building is undergoing a complete renovation that includes new infrastructure, finishes, and a refurbished exterior. The Coronet Restaurant will remain on the bottom floor of the three-story building. Construction is expected to be completed in December.

6

CUSHING STREET SKATE PARK

Local citizens are raising funds to build Arizona's first underpass skate park on the south side of the Cushing Street underpass below I-10. The project has been adopted and approved by the Tucson Parks Foundation and has the potential to be completed by summer 2018.

7

DOWNTOWN LINKS

Funded by the Regional Transportation Authority and partnered with the Tucson Department of Transportation, this improvement project will provide enhancements, benefits, and connections for pedestrians, bicyclists, and motorists. It includes a new four-lane road connecting the Aviation Freeway to I-10, improved drainage, bike lanes, multi-use paths, new bridges, public art and a deck plaza above the future underpass on Sixth Street.

8

DOWNTOWN MOTOR APARTMENTS

The Downtown Motor Hotel was designed by renowned architect Josias Joesler and built in 1941 as a single-story hotel for travelers. In February 2017, it was redeveloped into 44 low-income apartments. Portions of the original property remain and are used for the office and lobby areas. The four-story building also has a secure covered parking garage and a community viewing deck of the Downtown skyline.

9

GREYHOUND TERMINAL

Rio Nuevo purchased the land and built a brand-new facility that was completed in March. Located at Broadway and Euclid, Tucson's terminal is centrally located between campus and Downtown. It will have efficient freeway access upon the completion of the Downtown Links roadway project. Greyhound had been in a portable building near Broadway and I-10 since 2006. Prior to that, from 1959–2006, it was located on West Congress street next to the Rialto Theatre.

10

HISTORIC PIMA COUNTY COURTHOUSE

Pima County is currently renovating the building that will become the future home of the Western National Parks Association, Visit Tucson, the UA Mineral Museum, the Arizona Historical Society, and the January 8th Memorial. The exterior renovations are near completion, and the interior renovations—including new plumbing, electrical, and HVAC—will be completed by summer 2018.

11

INDIAN VILLAGE TRADING POST

Bourn Companies is renovating the building historically known as the Indian Village Trading Post at 60 E Congress Street. Renovations to the two-story building will coincide with the construction of City Park that is being built next door. Scheduled to be completed in spring 2018, the building will soon become prime restaurant and retail space in Downtown's entertainment district.

12

JANUARY 8TH MEMORIAL

Chee Salette Architecture Office has revealed the final design for Tucson's January 8th Memorial and Presidio Park master plan. The memorial will tell the story of the events of January 8, 2011, and will educate and remind people of their role in self governance. Organizers are raising the remaining \$1.5 million needed to fund the \$4 million project. The construction is a public and private partnership between the January 8th Memorial Foundation, the City of Tucson, and Pima County.

13

LA PLACITA VILLAGE

HSL Properties was approved for a city GPLET (government property lease excise tax) in March, and demolition of the 1973 property is scheduled to begin by the end of July. A new six-story complex with 240 apartments and ground-floor retail will be constructed in its place. Several buildings on the property are listed on State and National Registers of Historic Places and will not be demolished, including the Samaniego House, the Flin Building, and horse stables.

14

THE MARIST APARTMENTS

The Foundation for Senior Living is building a seven-story apartment complex called The Marist with 75 homes for low-income seniors. Located on the southeast corner of Broadway Blvd and Church Ave, it is replacing an office building once used by the Roman Catholic Diocese of Tucson. The project was awarded low-income housing tax credits (LIHTC) in 2016, and includes laundry rooms, a gym, outdoor patio space, socializing rooms, and private parking.

15

THE MARIST AT CATHEDRAL SQUARE

The historic 1915 Marist College will be renovated as part of the Marist Apartments development. The project received low-income housing tax credits (LIHTC) in 2016, and restorations to the exterior began in July. Located on the corner of Church Ave and Ochoa St, the first floor of the building will be a community center, and the second and third floors will include eight homes for low-income seniors.

16

THE MARK

Landmark Properties, the leader in student housing development, is proposing a four- and eight-story student housing complex on the 3.5-acre block on the northwest corner of Broadway Blvd and Park Ave. The development will produce 154 apartments for nearly 600 students. Demolition of the old Mark building, built in 1957, is complete. Construction is expected to begin late this summer 2017.

17

MCCORMICK APARTMENTS

Holualoa Companies and Scotia Group completed construction on these 25 three-story apartment homes in April. Downtown's newest homes are located on South Stone Avenue, across the street from Saint Augustine Cathedral and around the corner from the Arizona Theatre Company and the Children's Museum Tucson. Different floor plans are available and all units come with a garage.

18

MERCADO SAN AGUSTIN ANNEX

The number of businesses along Avenida del Convento will soon double. The Gadsden Company is developing this shipping container project west of Downtown. It will feature 15 food and retail outlets, a 500-seat outdoor venue, and ground-level parking. The site is on the streetcar route and is located close to Mercado San Agustín and the future location of Caterpillar headquarters. The project is scheduled to be finished by the end of the year.

19

MISSION GARDEN

Friends of Tucson's Birthplace and Rio Nuevo have reconstructed the 4.7-acre site that was once part of the 1973 San Agustín Mission by adding a new education center, a demonstration kitchen, a ramada, and restrooms with flush toilets. Other improvements include an adobe perimeter wall, utility line upgrades, irrigation, and signage.

20

MORDASINI VILLAS

Developer Catherine Morton, architectural firm Poster Frost Mirto, and longtime Tucson homebuilder Oden Construction have collaborated to build seven detached masonry homes in the Barrio Viejo neighborhood. Utility and infrastructure work is currently in progress. The first home is scheduled to be completed summer 2018.

21

MOXY HOTEL BY MARRIOTT

A millennial-minded hotel concept called the Moxy by Marriott was approved to be built on a vacant parcel on the corner of N 5th and E Toole avenues. Developed by Scott Stitler and designed by FORS Architecture + Interiors, the building will be eight stories with more than 100 rooms and a ground floor restaurant. Construction is scheduled to begin in early 2018.

22

PLAYGROUND & HUB REMODEL

Rio Nuevo and developer Scott Stitler are investing \$3.2 million in improvements to the properties along the 200 block of East Congress St. HUB Restaurant and Ice Creamery has closed until mid-August to expand its kitchen, add dining space, and enlarge its bathrooms. Playground Bar & Lounge is adding a new kitchen, main bar, lighting, furnishings, storage space, offices, additional bathrooms, and a permanent rooftop patio structure. It is expected to reopen in November. Both places will offer limited menus and will operate temporary concepts down the street at Martin Drug Co.

23

RIVERPARK INN

The 40-year-old hotel on Cushing Street west of I-10 will receive a \$2.2 million renovation that will include new finishes, furniture, fixtures, and bathrooms, plus upgrades to heating and cooling and the addition of sliding glass doors. The project will retain the building's charm while making the hotel more attractive to compete for conventions in Downtown. In January 2017 the project was approved for a city GPLET (government lease excise tax), however no timetable has been set for the construction.

24

RONSTADT TRANSIT CENTER

Peach Properties' proposal to re-develop the Ronstadt Transit Center was chosen by the City of Tucson in 2015. One requirement of the proposal is to keep Ronstadt as a fully functioning transit center. The 4.7-acre development also includes plans for a mix of 300 residential units, commercial and retail along with a boutique hotel, a public market, and open plaza space. Financing is said to be secured and is just waiting on Federal Transit Authority approval because of the transit component of the project. Construction could possibly start in 2018.

25

SCOTT AVENUE

Funded by Rio Nuevo, the \$750K streetscape project between Congress and Pennington streets will create wider sidewalks, enhanced crosswalks, a bike corral, new street lights, festival lights overhanging Scott Ave, and an enhanced plaza at the northeast corner of Scott Ave and Congress St. The Construction will last three months and will begin mid-August.

26

SEVENTH AVENUE COMMONS

Located in the historic Warehouse Arts District, construction is underway on this project that will produce 50 affordable housing units and a community center. Portions of the original 12,000 sq ft warehouse/office building remain and a new, three-story structure will be built. Construction is scheduled to be completed in early 2018.

27

TRINITY MIXED-USE

Designed by Rob Paulus Architects and developed by R+R Development and Bourn Companies, this redevelopment is located adjacent to two streetcar stops in the Fourth Avenue business district. It replaces unused buildings at the Trinity Presbyterian Church complex and proposes two new buildings at three and four stories with ground floor retail in both, room for office space, and rental units.

28

TWO EAST LOFTS

Downtown's newest homes are centrally located at the intersection of Stone and Congress. Art Wadlund and Rob Caylor, developers of the One East and One West projects, renovated floors 3-5 at the historic Chase Bank building located at 2 E Congress Street into 21 market-rate urban lofts. The lofts range from 398-845 sq ft and are available in seven different floor plans. There is a streetcar stop located immediately outside the entrance to the apartments, and units provide excellent views of A Mountain.

29

WEST END STATION

Gorman & Company, Inc. and the Gadsden Company are joint developers for West End Station, a \$12 million, 70-unit housing development located at 855 W Congress Street. West End Station will be built along the streetcar line near Mercado San Agustín and the future Caterpillar headquarters building. The development offers affordable housing and has been awarded low income housing tax credits (LIHTC). A ground breaking ceremony was held on July 11, 2017, and construction is expected to be completed by early Fall 2018.

30

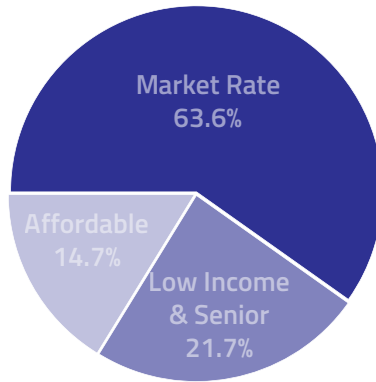

THE WESTERNER & WEST POINT APARTMENTS

COPE Community Services and Carhuff + Cueva Architects are redeveloping The Westerner building, which originally opened as a hotel in 1949. The existing four-story building will undergo a renovation for offices and ground floor retail. A new six-story tower will be erected on the east side of the lot, creating 50 homes for low-income seniors and veterans. The project was approved for low-income housing tax credits (LIHTC) in 2016. Demolition of the old one-story building at 20 E Broadway Blvd is complete.
