## About the Downtown Tucson Partnership Research

---

---

As we begin to emerge from Covid and look toward the summer season, it is critical for downtown leaders to assess priorities and plans of residents, customers, and employees.

As a service to our members, IDA has partnered with RRC Associates to survey residents and provide insights into their priorities and concerns. This dashboard summary compares the results from Downtown Tucson Partnership to the overall pool of respondents from the US and Canada.

The data can be critically important in helping to shape your planning and messaging for the public this summer. We recommend that you share it with your partners at the City, Chamber, CVB/DMO, etc. as well as your business stakeholders.

If you have questions about the results, please contact Sean Maher at RRC Associates: [sean@rrcassociates.com](mailto:sean@rrcassociates.com).

# Likelihood to Travel and Shopping

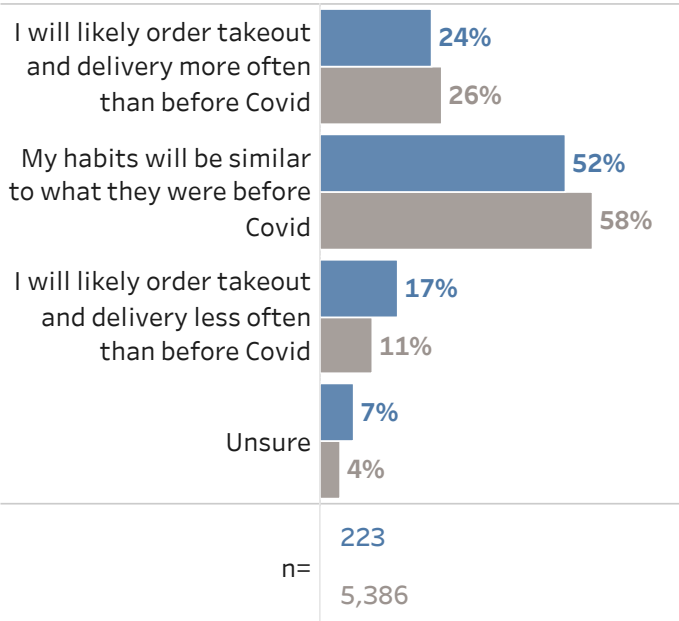

## How likely are you to take an overnight leisure trip this summer?

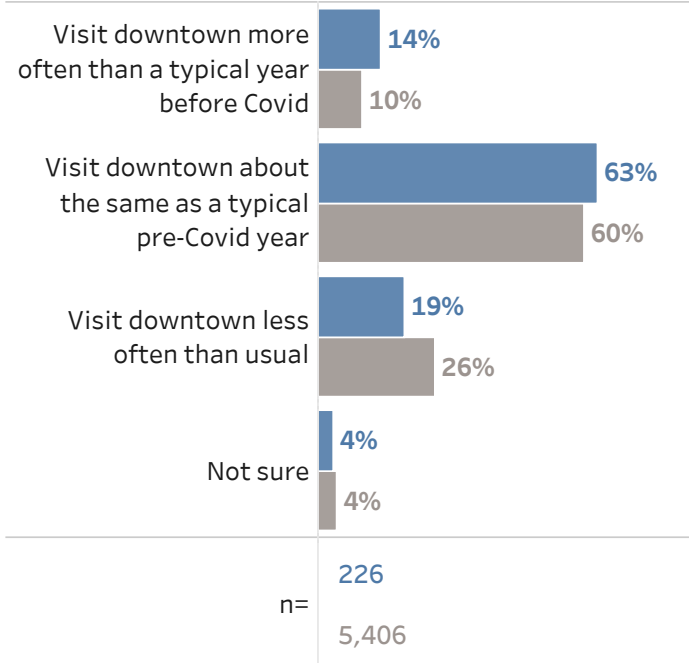

## Many people have shopped online more during the pandemic than they did before. Once Covid is no longer a threat, do you think you will:

## Many people also ordered more takeout and delivery during the pandemic. Going forward, will you order more or less takeout from restaurants?

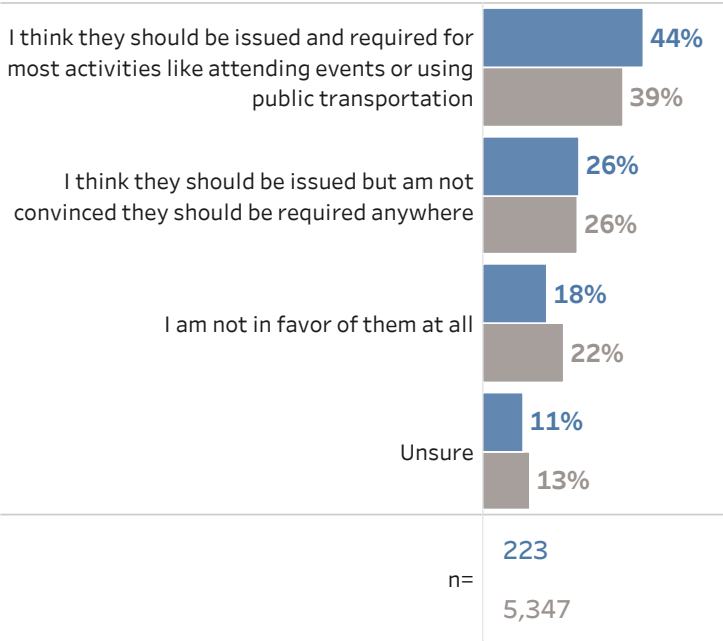

## Now thinking about visiting your downtown district for shopping, dining, or leisure, this summer, do you think you will:

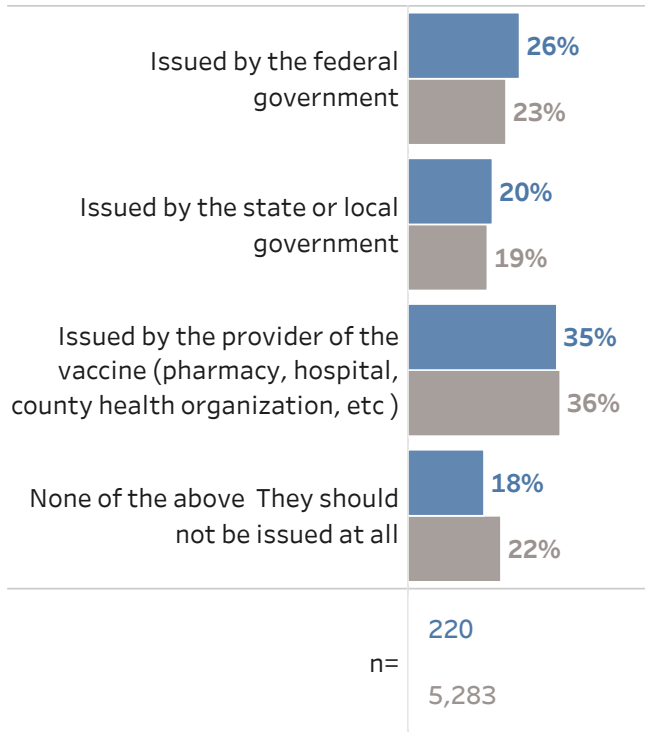

# Vaccine Passports and Sources of Informati..

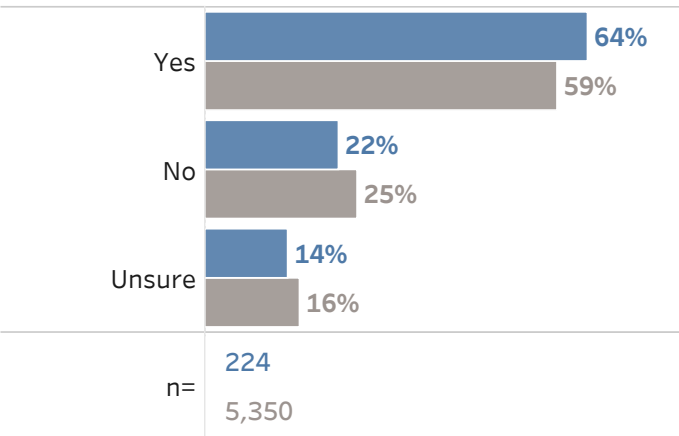

You may have heard about the possibility of “Vaccine Passports” that would allow people who have been vaccinated to easily identify themselves. What are your thoughts on the idea?

If there are Covid Passports or “Proof of Vaccination” cards, do you think they should be:

Do you favor a Covid vaccine requirement of any kind to enter certain facilities and events or board a commercial airline flight?

What is your preferred method for staying informed on what is happening downtown in general and related to Covid updates?
