

Artist Submission Details

The goal of Spring Kaleidoscope is to bring visual interest to a variety of businesses throughout the Village and to share your artistic talents with the community during a one month exhibit. This can be created through painting directly on the storefront window or possibly through a free standing installation within the business window display space. We anticipate most art installations will be directly applied to the storefront windows.

Please provide 2-3 sketches (pencil or digital) showing your idea/concept. Please include a written explanation of your installation to help the judge/board members visualize your idea/concept.

If you plan to paint directly on the window, keep in mind that most businesses still need customers to be able to see through to their display, so painting might need to be done along the frame. Consider a rectangular or square image as most storefront windows are one of those shapes.

If you are proposing an installation in the storefront itself, it will need to be free standing and not attached directly to the walls or ceiling. You can use a variety of materials.

In addition to submitting 2-3 sketches and written explanation to CVA's Art Coordinator, Monica Martin, at monicamartinfineart@gmail.com, please include the following information:

Full legal name
Business name
Mailing address
Telephone number
Email address
Website url
Social media links

If you do not have an Artist's Bio on your website, please include a short paragraph about yourself and your background to help us know you better.

Please SUBMIT only if you will be available to install and complete the painting/installation according to the timeline provided to you by the art coordinator.
