

NOTICE OF PARKING CHANGE

March 29, 2023

Dear Property Owner and/or Resident,

Pursuant to San Diego Municipal Code (SDMC) section 82.04 and California Vehicle Code (CVC) section 22508, parking meter zones must be established by ordinance. On August 13, 2023, City Council approved Ordinance 21365 establishing the creation of parking meter zones throughout the City of San Diego including the Downtown Community Parking District.

The City of San Diego is proposing to install metered two-hour time limit parking along identified streets within the East Village neighborhood including:

- Island Avenue between Park Boulevard and 17th Street
- J Street between Park Boulevard and 17th Street
- K Street between 13th Street and 17th Street
- 13th Street between Island Avenue and K Street
- 14th Street between Island Avenue and K Street
- 15th Street between Island Avenue and K Street
- 16th Street between Island Avenue and K Street
- 17th Street between Island Avenue and K Street

See the enclosed diagram for the proposed metered time limit parking locations. This proposal is intended to create parking turn-over in the area and to increase the available on-street parking. This will provide better management of parking in the area and can make it easier for visitors and patrons to find on-street parking.

Pursuant to Ordinance 21365, the effective hours of the proposed metered two-hour time limit parking along the identified streets in East Village are between 10am and 8pm Monday through Saturday, Sundays and holidays are excluded. This is intended to allow for use of parking in the evenings for residents in the area.

In accordance with Council Policy 200-04, this proposal will be discussed at a noticed community parking district meeting. The Downtown Parking Management Group meets on the second Thursday of every month at 401 B Street Suite 100, San Diego, CA 92101. If you would like to attend to voice your opinion on this matter you may attend the Downtown Parking Management Group meeting. You may also provide input via email to sustainability@sandiego.gov.

Sincerely,
Claudia Brizuela

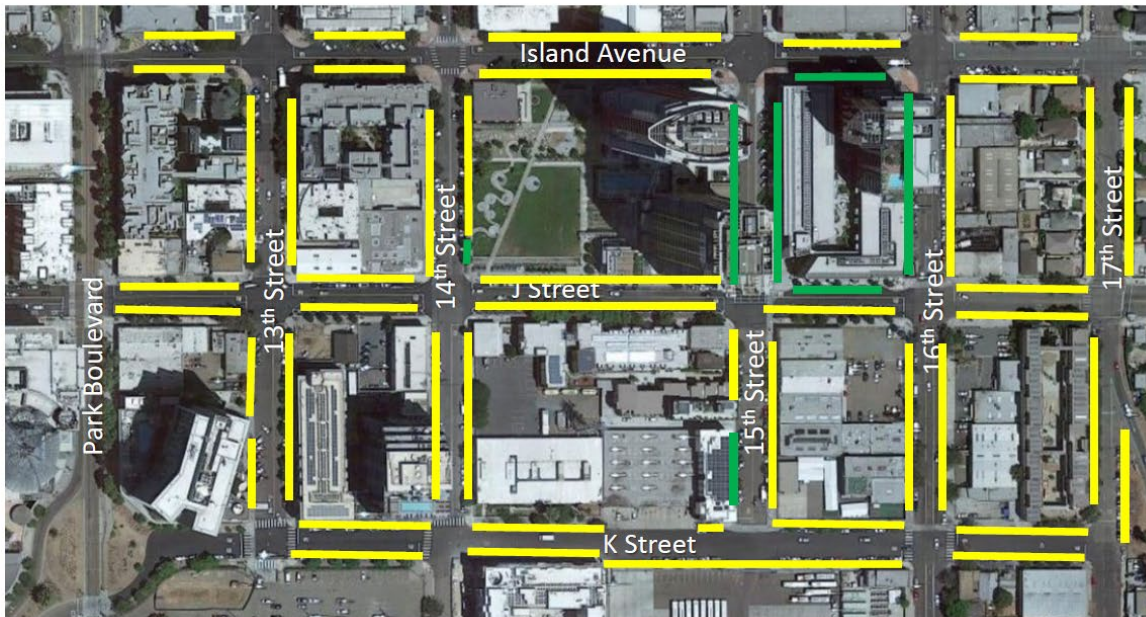

Senior Traffic Engineer
Sustainability and Mobility Department

East Village Association Launches Subdistricting Initiative to Strengthen Neighborhood Identity

The East Village Association Directors and staff invite the community to share their recommendations in a series of community workshops focused on their new subdistricting project.

SAN DIEGO (April XX, 2024) – The [East Village Association](#) (EVA) is excited to embark on a new subdistricting initiative in the neighborhood. As part of their ongoing dedication to strengthen the overarching identity and brand of East Village San Diego, the East Village Association is looking to gather community feedback and support for the project. Through a series of community workshops, the EVA will delineate five (5) subdistricts in the neighborhood, each with specific boundaries and names, with the intention of developing individual logos and color schemes for each.

“The East Village Association is one of the most diverse neighborhoods in San Diego, and we want to celebrate all of the unique communities and pockets through this subdistricting initiative,” said Dominic Li Mandri, District Manager of the East Village Association. “Each district will reflect a different aspect of what makes East Village so special, while still belonging to the larger East Village Community.”

As the largest neighborhood in Downtown San Diego, encompassing more than 130 city blocks, East Village is home to many different communities. From the eclectic mix of local restaurants to the world-class educational institutions and PETCO Park, home of the San Diego Padres, East Village stands as one of our city’s most economically diverse areas. The new subdistricting initiative will give a voice to the many different businesses and groups that call East Village home, strengthening the neighborhood’s overall identity.

The East Village Association invites residents and business owners to share their thoughts and recommendations at a series of subdistricting workshops. See below for more information on subdistrict meeting dates and times.*

- Commons/Bayside Subdistrict Workshop – Monday, May 6th, 5:30PM – 6:30PM at [Storyhouse Spirits](#)
- Commons/Bayside Subdistrict Workshop – Tuesday, May 7th 10:00AM – 11:00AM at [UCSD Park & Market](#)

- Northwest/Campus Subdistrict Workshop – Monday, May 20th, 5:30PM – 6:30PM at [Storyhouse Spirits](#)
- Northwest/Campus Subdistrict Workshop – Tuesday, May 21st, 10:00AM – 11:00AM at [UCSD Park & Market](#)
- Ballpark Subdistrict Workshop – Monday, June 3rd, 4:30PM – 5:30PM at [Storyhouse Spirits](#)

Community members may participate in one or all of the upcoming community workshops beginning Monday, May 6th through Monday, June 3rd. Upon completion of these workshops, staff will compile recommendations and finalize boundaries and names for each of the subdistricts. Staff will then present to locally recognized planning group and then host the final community public meeting to present the final plan

*Meeting dates, times, and locations may change. To keep updated on all information and schedules for the community workshops and final community meeting, visit www.EVSDSubdistricting.com.

About East Village Association

The East Village Association is San Diego's largest downtown business district and neighborhood. Encompassing 130 blocks, between Seventh Avenue to 17th Street, there is so much for guests to explore and enjoy. Over 700 businesses call East Village home and are made up of unique culinary experiences, hip gathering spots and watering holes, hotels, galleries, one-of-a-kind retail, and PETCO Park - the home of the San Diego Padres.

East Village also is a hub of several premier educational institutions including the New School of Architecture and Design, the Fashion Institute of Design and Merchandising, San Diego City College, and the newly built UCSD Extension Center on Market Street. To support these facilities and San Diegans, the City of San Diego built the new San Diego Library in 2013 with state-of-the-art spaces and resources for all to access.

The East Village community currently has over 20,000 (and growing) residents, with most living in mid-rise or luxury condominiums and lofts. Continuing urban development and the steady growth of new businesses continue to draw locals from neighboring Downtown areas, and elsewhere in San Diego County, to its diverse and vibrant community with a unique mix of arts, culture, education, and entertainment.
