THE HOLLYWOOD PARTNERSHIP

Operations Dashboard
October 2026

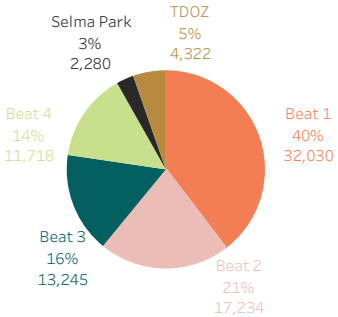

Introduction

This monthly report is intended to keep HED stakeholders updated on the latest operations data from the Hollywood Partnership Community Dispatch Center. Cleaning, safety, and hospitality services are provided by Block by Block, the nation's leading customer service provider for business districts.

Now in its third year of operation, the HPCDC remains a vital hub for managing and coordinating public safety and cleaning efforts across the district. Each interaction is logged in real time using mobile technology and fed into a centralized system.

Hollywood Partnership Ambassadors proactively monitor the district day and night, cleaning out trash cans, removing waste and graffiti, pressure washing sidewalks, providing safety response for non-emergency issues, connecting with community partners to solve problems, offering guidance and directions to help visitors easily navigate their way through the district, and so much more.

**Please note that our vendor's data tracking system's update, SMART 2.0, was launched in September 2025, so there may be data discrepancies as we transition to this new system.*

Safety

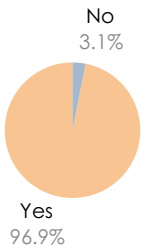

Our safety team is trained to respond to non-emergency safety issues. We are here to enhance the overall feeling of safety in the district. Our team members can help deescalate a situation, connect unhoused individuals to social service agencies, and accompany visitors, employees, or residents through an uncomfortable experience.
