

Jack London Improvement District

Clean and Safe Report

September 2026

Reporting period: January 1–August 31, 2026.

The Overview

Summer Highlights – Jack London Improvement District

This summer, the ambassador team supported neighborhood improvements and community events alongside ongoing cleaning and hospitality services. Highlights include support for the 2nd and Alice Mosaic Mural renovation, Taste of Jack London, and the median refresh.

2nd and Alice Mosaic Mural

Ambassadors provided cleaning and pressure-washing support for the renovation of the 2nd and Alice Mosaic Mural, contributing to the preparation and care of the project area.

Taste of Jack London

The team supported event preparation and provided assistance before, during and after Taste of Jack London. Additional hospitality support during the event strengthened the ambassador presence available to visitors and participating businesses.

Median Refresh

Work is underway to refresh district medians. Ambassadors are contributing to this streetscape effort while continuing routine weed abatement and plant care. The refresh remains an active project.

Cleaning & Streetscape Care

Through August 31, the team recorded 4,457 block faces swept, 1,632 block faces of weed abatement and 2,222 plants watered. These year-to-date activities complement the summer project work and ongoing care of district public spaces.

Hospitality & Community Contact

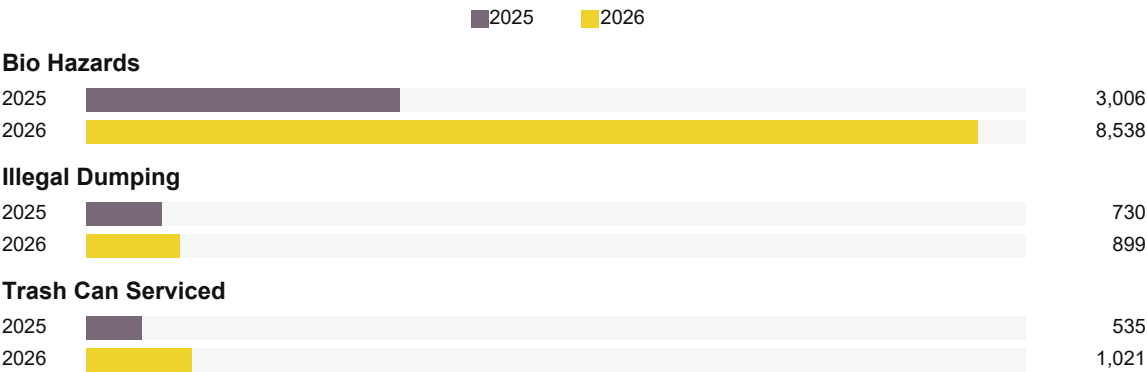

Year-to-date activity includes 4,155 business contacts and 2,023 hospitality interactions. These district-wide totals provide context for the team's public-facing work; they are not event-specific counts.

Yearly Statistics through August 31, 2026

Recorded metric	2025	2026	Change	% change
311 Request	90	62	-28	-31.11%
Auto Glass Clean Up	233	169	-64	-27.47%
Bio Hazards	3,006	8,538	+5,532	+184.03%
Business Contact	4,186	4,155	-31	-0.74%
Graffiti	1,746	973	-773	-44.27%
Hospitality Interaction	2,228	2,023	-205	-9.20%

Welfare Check (Non Comply)	—	12	—	—

Continued Focus on Beautification

January–August 2026 recorded quantities..

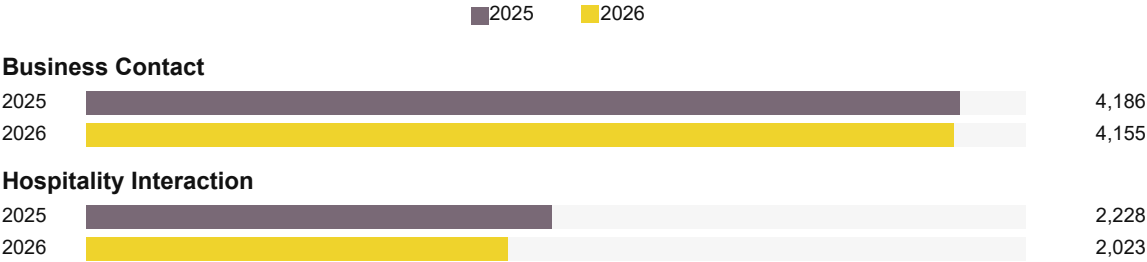

Our ambassadors continued supporting district beautification by removing waste, addressing unsanitary conditions and servicing public trash receptacles. Through August, the team recorded 8,538 biohazard cleanups, 899 illegal-dumping cleanups and 1,021 trash-can services--all above the same period in 2025. This increased cleanup activity reflects the team's ongoing work to maintain cleaner, more welcoming public spaces, while underscoring the importance of consistent attention to recurring maintenance needs.

Recorded metric	2025	2026	Change	% change
Bio Hazards	3,006	8,538	+5,532	+184.03%
Illegal Dumping	730	899	+169	+23.15%
Trash Can Serviced	535	1,021	+486	+90.84%

Community Contact & Visibility

January–August 2026 recorded quantities.

The team maintained a strong public-facing presence across the district through August, recording 4,155 business contacts and 2,023 hospitality interactions. Business contacts were nearly consistent with the same period in 2025, declining by 31 contacts, or 0.74%. Hospitality interactions decreased by 205, or 9.20%. Together, these figures reflect continued engagement with businesses, visitors and the broader community while ambassadors remained focused on cleaning, beautification and event support throughout the district.

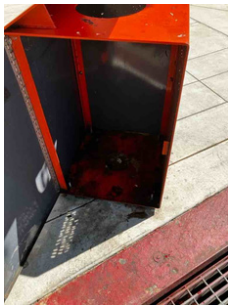

Recorded metric	2025	2026	Change	% change
Business Contact	4,186	4,155	-31	-0.74%
Hospitality Interaction	2,228	2,023	-205	-9.20%

Team Spotlight

The photographs show Ambassador Chris providing detail cleaning work in his megabrute and Ambassadors Solomon and Eric working together on planting in medians. They document field presence, sidewalk service and hands-on streetscape care.

Heat Map: Broken Auto Glass

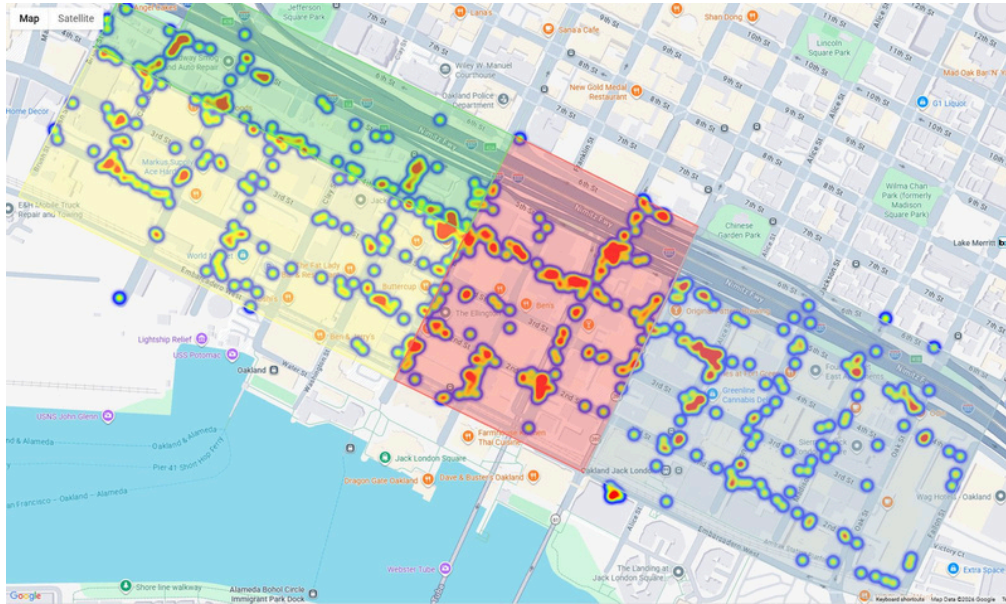

Public Safety Update: Car Break-Ins

The district recorded 169 broken auto-glass cleanups from January through August 2026, compared with 233 during the same period in 2025. This represents 64 fewer recorded cleanups, or a 27.47% decrease.

- **Reduced Cleanup Activity:** The year-to-date total reflects fewer recorded auto-glass cleanup responses than the same period last year.
- **Continued Field Attention:** Broken auto glass remains a public-space maintenance concern. Ambassadors continue to identify and address this condition as part of routine district cleaning and field visibility.
- **Targeted Monitoring:** The heat map shows the locations associated with recorded auto-glass cleanup activity and can help guide route planning, field observation and coordination with district partners.

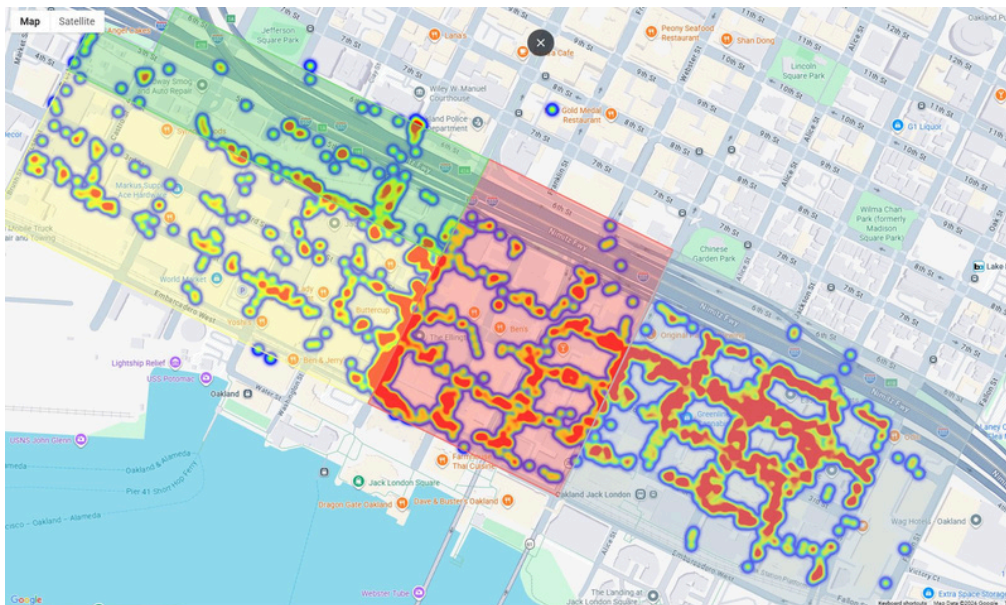

Heat Map: Illegal Dumping

From January through August 2026, the team recorded 899 Illegal Dumping entries and 8,538 Biohazard Cleanups. Compared with the same period in 2025, Illegal Dumping activity increased by 169 occurrences, or 23.15%, while Biohazard Cleanups increased by 5,532, or 184.03%.

These figures help identify where recurring conditions require field attention. Ambassadors continued responding to unsanitary conditions to support cleaner, safer and more welcoming public spaces throughout JLID.

Moving Forward

Looking Ahead

As we move into the next reporting period, the team will continue deweeding and maintaining the district's medians to support clean, cared-for public spaces. Ongoing median care will include identifying areas that need additional attention and coordinating work based on field conditions.

We will also continue identifying pressure-washing hot spots and prioritizing locations where recurring buildup, staining or public-space wear requires focused service. This information will help guide route planning and improve consistency across the district.

We recognize the ambassador team for its continued commitment to daily cleaning, streetscape care, hospitality and special-project support. Their visibility, responsiveness and hands-on work remain central to maintaining the Jack London Improvement District.

Team Spotlight: Ice Cream Social

The Jack London Ambassadors celebrating our annual Ice Cream Social Event.
A moment to recognize the people behind the district's daily cleaning, public space, and community services.
