Monthly Operations Report

March 2022
81,175
Total pounds of garbage removed

March’s trash haul represents a +10% change from February 2022.

20,041
Total cleaning tasks completed this month

On average, Sweeping Tasks were completed in 51 minutes and Trash Bags were filled and picked up in 105 minutes.
Our Employee of the Month for March was Gordon Rowe, who has been with SOMA West CBD since 2020. Gordon is primarily stationed in Zone 4, which covers the area between Bryant and Folsom and 8th and 10th, but covers other areas as needed. Gordon is known for his thoroughness in getting the job done, which has not gone unnoticed by our staff and the community members we serve. Recently, one of the local businesses that interact with Gordon regularly called our office to give feedback on how attentive he is and how much they appreciated his work. This was some of the strongest feedback we’ve received for one of our employees. Thank you for all of your hard work, Gordon!

__Coverage__
