ADDENDA

DATE: June 5, 2024

SUBJECT: RFQ-202405-01 Addendum #1

SIGNATURE OF PURSUIT LEADER

ACKNOWLEDGING RECEIPT OF ADDENDUM #1: _____ **Date:** _____

The following are ADID responses to requests for clarifications regarding RFQ-202405-01 **(in green)**. **Attachment 1** below includes the list of registrations for the optional pre-bid meeting held on May 29th, 2024.

1. Will selected prime firm or subconsultant firm(s) for this program management contract be precluded from future phases or projects related to the delivery of the Stitch?
 - **No. The only work a prime firm or subconsultant firm will be excluded from is design work on phase 1 components of the Stitch, which a team led by WSP, Inc. is currently under contract for. This contract ends at the conclusion of phase 1 work.**

2. In Section VII.A.1. Technical Approach, the RFQ requests items a, b, c, and d. According to the submittal format outline on page 25 of the RFQ, the Technical Approach section is to contain items a, b, c, d, and e (Provide conceptual task durations). Can you clarify what sections are requested within the Technical Approach section?
 - **Section e. "Provide conceptual task durations" was included in the checklist by error. Please disregard.**

3. Can you clarify the correct lettering of sections in our response? The lettering/numbering is inconsistent between Section VI – Instructions for Content and Preparation of Statements of Qualifications, which requests:
 - A. Administrative Requirements
 - B. Experience and Qualifications
 - C. Resources/Workload CapacityPhase II Response

And the submittal format outline, which requests:
 - A. Consideration Checklist
 - B. Administrative Requirements
 - C. Experience and Qualifications
 - D. Resources/Workload Capacity
 - E. Phase II Response
 - **Please follow the lettering in Attachment 1 PHASE I & II RESPONSE.**

4. In the RFP on page 17 the following is stated “The consultant is required to provide Subject Matter Experts (SMEs) in the fields of roadway, survey, drainage, structures, geotechnical, traffic engineering, landscape/hardscape, architecture (park structures), Intelligent Transportation Systems (ITS), tunnel design, environmental, and utilities to assist in technical design reviews submitted by the design teams.” Is it expected we provide qualifications/resumes for these individuals? If so, would you consider allowing an Appendix or increase the page count of the response, in order to provide?
 - **Experience and qualifications are only required for the project manager and key team leaders. An appropriate section to include information about additional Subject Matter Experts could be the Narrative on Additional Resources Areas and Ability, but this is up to the discretion of the responding teams.**

5. What is the length of time for the contract?
 - **Length of time for the contract is anticipated to be for the duration of Phase 1 Stitch implementation (2024-2030). However, ADID reserves the right to cancel the contract sooner if the services are no longer necessary.**

6. When is the contract expected to be awarded?
 - **The contract is expected to be awarded as soon as the selection and negotiations process successfully concludes. ADID is targeting August 2024 for contract execution.**
