Re: SELECTION OF FINALIST FIRM
RFQ-202208-01 Planning & Engineering Design Services in Support of I-75/I-85 Capping from Baker St/Piedmont Ave Bridge to Ted Turner Drive Bridge (The Stitch)

The RFQ-202208-01 selection committee has completed its evaluation of Phase I and II submissions for the above-referenced project. Based on the information submitted and the evaluation criteria established for this project, **the team selected the WSP team as the top-ranked firm for the solicitation.** The ranking of the three finalist firms are as follows:

1. WSP
2. Jacobs
3. Atkins

If contract and task order negotiations with the top firm are unsuccessful, ADID will enter into negotiations with the next highest-ranked firm.

Please contact Jack Cebe, Stitch Development Manager, with any questions. Thank you for your continued interest in working with ADID!

A handwritten signature in black ink, appearing to read 'Jack Cebe', is positioned above the contact information.
