

# About Midtown Green

Our public works team keeps Midtown sidewalks, parks and plazas looking good.

*Midtown Green provides daily maintenance, cleanup and repairs in the public realm, all of which contributes to the best possible urban experience in Midtown.*

## For a cleaner, greener, safer Midtown.

Midtown Green is on the job every day removing trash and graffiti, planting new landscaping, repainting light poles, cleaning fixtures, reporting issues to the City and keeping the public right of way in tip-top shape.

Our team also reports and tracks infrastructure issues - such as street light outages and repairs needed after fiber install crews dig up streets - with the City to achieve resolution.

.....

Midtown Alliance functions - and especially our Midtown Green maintenance crew - were deemed by the State as essential services at the outset of the pandemic, and we have been on duty every day, working hard to keep pace with operations and maintenance needs.

.....

## Positive Impact

Midtown Green operations serve more than 120 city blocks in Midtown's central business district.

23

linear miles of maintenance and trash removal on Midtown's sidewalks and streets

177K

pounds of trash and debris removed annually by our crews

30K

total sq ft area of public spaces maintained by Midtown Green

## What We Do

- **Collect** trash and debris every week
- **Maintain** public parks, plazas, medians and gateway areas
- **Clean** debris out of storm drains to make sure the storm water system works well
- **Perform** landscaping duties to improve safety and line of sight
- **Pressure wash** sidewalks and plazas on the public right of way
- **Address** ADA and safety issues along sidewalks and curbs
- **Manage** public equipment, from games to seating
- **Execute** repairs for tree well fencing and street furniture
- **Plant and care** for 2,700+ street trees along sidewalks plus seasonal annuals

We work 7 days a week to maintain the Midtown District. Our crew of 12 begins their work detail before sunrise.

Spot an infrastructure issue outside in the public right of way that needs attention? Here's what you can do:

311

404-817-0500

**Examples:** clogged storm drains, potholes, light outages, missing street signs, sidewalk damage and accessibility issues, water main breaks

Call the City of Atlanta's **311** service to report the issue. Then call us at **404-817-0500** to let us know, and our team will track the issue with the City until resolved.

## Your Role in a Well-Maintained Midtown

Help us maintain a clean and green public realm that everyone can enjoy. Some ideas to consider:

**It only takes a moment** to pick up litter on the sidewalk and put it in a nearby receptacle

**If you see something broken or out of service,** inform us at 404-817-0500

**Your building can participate** in this work and create a sense of community by adopting a tree well. Learn more at [MidtownATL.com](http://MidtownATL.com)

**Midtown Alliance** programs keep the district clean, safe, accessible and interesting.
