A CLEAN CAR IS A SAFE CAR

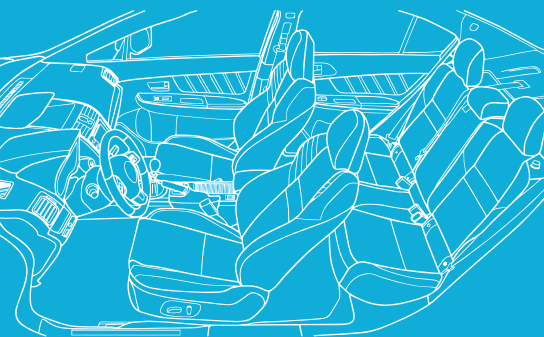

Before you park and leave your vehicle, remember these three steps:

1

Park in well-lit and/or populated areas.

2

Check and clear your front and back seats for *all* belongings and valuables, leaving *nothing* in sight.

3

Roll up your windows, and be sure lock your car.

Every trip. Every time.

These simple steps can significantly reduce the likelihood that your car will be broken into and help prevent crime.

Here to Serve Our Community

We provide supplemental public safety services in close coordination with the Atlanta Police Department (APD) for 24-7 coverage in the Midtown Improvement District. While the program is 100% funded by commercial property owners, we proudly serve everyone who spends time here.

Your Role in a Safer Midtown

Public safety is a shared responsibility. Help the Midtown Blue team do the best job they can do by doing the best job you can:

- If you observe a situation or person's behavior that looks out of place, report it by calling 911 and then dial Midtown Blue at 404-817-0500.
- Lock your vehicle and remove all valuables. Every trip.
- Do not hold the door open for strangers or let them follow you inside when you enter secured buildings.
- Never prop doors open to a building.
- Always park in a designated parking area when you need to run into a store to pick up an item. Do not leave your car parked illegally at the curb.
