Public Safety Spotlight: Midtown Blue's Public Safety Officer Program

We pick a topic to highlight for each of our summaries. In this report, we look at the impact of on-the-ground patrolling that was augmented with the launch of the Public Safety Officer detail.

Violent crime is down -32% overall in the 7 years since Midtown Alliance began the Public Safety Officer (PSO) detail.

What 14 years of data show: In examining the seven years prior and the seven years after the PSO detail began patrolling as a force-multiplier full-time in 2016, the numbers indicate the program has had a positive impact in fighting crime and deterring crime, *even with* the tremendous growth in Midtown over this timeframe:

	2009-2015 7-year average prior to PSO program first full year	2016-2022 7-year average after start of PSO program	% change after PSO program started
Violent Crime	119 incidents	81	-32%
Property Crime	1246 incidents	1119	-10%
Overall Crime	1361 incidents	1199	-12%
Pedestrian Robbery	59 incidents	28	-53%

 - which are "stranger-on-stranger" crimes -
 experienced a **-53% decrease** in the 7 years
