

#### **PILOT Application:**

#### 509 BB King, Memphis TN 38126

Administered by: Center City Revenue Finance Corporation

Dear Members of the Board,

Thank you for the opportunity to present the enclosed PILOT application for the activation of 509 BB King "Butler Row" as a new mixed-use urban community.

The proposed development anchors the southeastern end of the Historic South Main District, a vibrant retail district with a present need for residential density. The development not only provides density but, by bridging the South Main Historic District and the South City Neighborhood, also serves as a vital connecting "node" between these growing areas. The development greatly improves the "street presence" of developing corridors including GE Patterson & South BB King Boulevard while bringing residents and retail to a growing downtown market.

The site is currently under contract by KRN Development, LLC and Capital Square Acquisitions, LLC. Extensive due diligence, budgeting and schematics have been performed to determine the viability of the project. With your help, the development team believes this project will greatly benefit the downtown market by adding approximately 10,000sf of ground floor commercial and amenity space, approximately 285 new residential units, and an approximately 300-space structured parking garage.

The project itself is organized as a series of residential bars activated by generous courtyards which will be thoughtfully programmed and landscaped to support various activities. The primary goal of the Butler Row project is to create an infill development that will positively impact the South Downtown area by increasing the walkability and activity of the surrounding neighborhood.

We appreciate your deepest consideration for the approval of the proposed PILOT and we look forward to partnering with the DMC to bring this project to fruition.

Sincerely,

Scott Kern, President

KRN Development 1331 Union Avenue Ste. 1028 Memphis, TN 38104

#### 3. Proposed Project description

a) Location:

Project Address: 509 B.B. King Avenue, Memphis Tennessee 38126 Parcel ID: 002135 00003C Parcel ID: 002135 00004C Parcel ID: 002135 00007 Parcel ID: 005019 00002 Parcel ID: 005019 00001C

509 B.B. King is located in one of the most exciting up and coming nodes of downtown Memphis. The site, immediately adjacent to the South Main Historic District along with the new Wiseacre Brewing Company Headquarters is becoming a perfect place to introduce a new mixed-use program and density. Additionally, while minimum parking spaces are not required by the South Main (SM) zoning district to provide a minimum number of parking spaces, the development will provide approximately 300 spaces of structured parking on-site.

b) Intended Use:

The proposed Butler Row project will be a mixed-use development including approximately 285 new apartment units, over approximately 10,000 SF of ground floor commercial and amenity space, and approximately 300 spaces of structured parking. The developer is working with an experienced team of project managers, architects, contractors, and consultants to deliver a project that meets the demands of a growing downtown Memphis market while also raising the bar for new construction development projects. The target rents will be market rate for both the apartments and retail.

c) Economic and Environmental impact:

Since the early 2000s, the site has been used primarily for warehousing and industrial storage. While a large portion of the site has remained vacant since 2008, currently, the site is being used as warehousing for a trucking operation, with trailers often being stored on-site. The proposed development will bring over 285 new residents to downtown Memphis as well as 10,000sf of new commercial space with a focus on restaurants and fast casual dining along the B.B. King and G.E. Patterson corridors. It will also include 300 parking spaces within a 2-story podium structure. The site is immediately adjacent to the new Wiseacre Brewery headquarters which has spurred activity along the BB King/3<sup>rd</sup> street Corridor. By activating the currently vacant site this project will create a critical connection between the South Main Historic District and South City. The project development will spend approximately \$65,000,000 with local trades, contractors and professionals.

- d) The square footage of the building/land area to be renovated:
  - a. New Garage footprint: Approximately 50,000 sf
  - b. New commercial/amenity space & Apartment footprint: Approximately 56,722 sf
  - c. Total: Appx. 106,722 sf of Land area / 2.45 ac.
- e) Attached are the conceptual plans and renderings. Please See Attached Exhibits.

f) A Letter from certified engineer, licensed in the State of Tennessee, as to the structural integrity of the building for its intended usage:
 Existing buildings on-site will be demolished. The new building is being designed by Tennessee licensed architects and engineers and will meet all applicable building code requirements.

- g) State the Marketing plans for the project identifying the intended market. What types of lessees are anticipated?
  Ground Floor Retail and Commercial spaces will be leased as NNN. Commercial Tenants will be determined over the course of project design & construction with an emphasis on restaurants, fast casual dining, and service. Upper floor multi-family residential will be leased at market rate with full occupancy expected conservatively within twelve (12) months from substantial completion.
- h) If the project is speculative, how long is full occupancy expected to take and who will manage the project? Residential multi-family units are expected to be leased as traditional leases at market rates with full occupancy conservatively expected within twelve (12) months from substantial completion. Commercial Retail leases are expected to be signed during the construction phase, transition to tenant improvements, and have tenants occupy the property immediately thereafter. Property management services will be provided by a premier third-party management company with offices on-site.
- i) Are changes needed to the public space around the project (for example; sidewalks, lighting and planting)? Improvements will be required to the sidewalk, new or re-located curb cuts, and possible road closures on Butler and G.E. Patterson during construction. New architectural lighting is anticipated to be included in the project's design. New landscaping is expected to be included at ground level adjacent to public sidewalks and at raised amenity spaces. Additionally, the development team is contemplating improvements to the adjacent Navy Park in cooperation with the City of Memphis and Shelby County to serve as an additional amenity for residents and locals alike.
- 4. Site Control
  - a) Name the property owner at the time of application: Butler Row Partners, LLC (or its assignees) is under contract to purchase the subject property from DRAPAC GROUP 51 LLC.
- 5. Financial items:
  - a) Financial Background:

Attach current audited financial statements of the applicant and guarantors. If audited financial statements are unavailable, please submit non-audited statements. State the relationship any applicant or grantor has had with any accounting firm of the last five years. **To be provided to Board Chairman or Board Attorney as required.** 

b) Describe any and all existing financing, options, and liens on the property: Butler Row Partners, LLC is scheduled to purchase the property on February 18<sup>th</sup>, 2022 and will use bank financing to complete the construction.

Attach three years of tax returns if applicant is an individual: **To be provided to Board Chairman or Board attorney as required.** 

*Provide the following information about the loan or proposed loan for the project:* **See attached.** 

Attach information about the financial history of the project and previous attempts to develop, if possible: Through the PILOT program, the applicant can make an investment that will add density and vibrancy to the downtown core.

c) Financial Projections:

State the estimated Project costs broken down by component (i.e. land, buildings, equipment, soft costs, etc.) attach bid estimates and show amounts to be paid from loans and equity amount. See attached sources and uses.

- d) Attach a cash flow pro-forma along with a statement of Sources and Uses of funds for the project. **See attached cash flow-proforma.**
- 6. Project Timeline:
  - a) State the proposed time schedule for the Project including the dates anticipated for the following:
    - a. *Closing of the loan or contributing financing availability.* **Upon PILOT approval and prior to the Commencement of Construction (see attached project schedule).**
    - b. *First expenditure of funds with regard to the project.* **Soft cost expenditures have begun as well as acquisition funds.**
    - c. Anticipated construction will begin. See attached project schedule.
    - d. Anticipated completion date. See attached project schedule.

# B. B. King Blvd.

"Butler Row" will be a community-focused, mixed-use development east of Memphis' evolving South Main Historic District. The project will anchor developing corridors including GE Patterson and BB King while bringing residents to a growing downtown market.

The project is organized as a series of residential "bars" resting on a podium parking garage which is screened at the ground level by commercial retail.

Spaces between residential bars are activated by generous courtyards which will be thoughtfully programmed to support various community activities while providing options for personal space.

CUC+

# Butler Ave.

A primary goal of the project is to promote a healthy, urban lifestyle by encouraging walkability and multi-modal transit. New crosswalks and pedestrian lighting will provide for traffic-calming and improve safety measures. Sidewalks will be designed to maintain continuity for walking, biking, and other means of personal transport.

Ground-floor retail spaces will activate street corners, providing meaningful connections between BB King Blvd. and the South Main Historic District.

CUC+

# Hadden St.

Hadden Street, framed by commercial retail and restaurants, is envisioned as an urban market and a new amenity to the downtown neighborhood. Commercial retail and leasing offices address BB King Blvd. facing a newly built brewery.

The surface of Hadden St. will be designed in collaboration with Memphis artists to designate the "market" while serving to slow vehicular traffic.

CUC+

# G.E. Patterson Ave.

A mixed-use building will address GE Patterson Ave. adjacent to Navy Park. Separated from the podium structure, this building will be in-line with the scale of other buildings on the street.

In addition to the raised courtyards, the development will offer a variety of amenities including a pool and co-working space intended to compliment the live / work / play lifestyle of downtown residents.

# Exterior

Exterior massing responds to site-specific constraints including adjacent buildings and public infrastructure such as the Little Bettie Bayou. Materials will include earthy, brick tones mixed with white forms that reflect light deep into courtyard spaces. Black and steel accents will define crisp edges and profiles.

CUC+

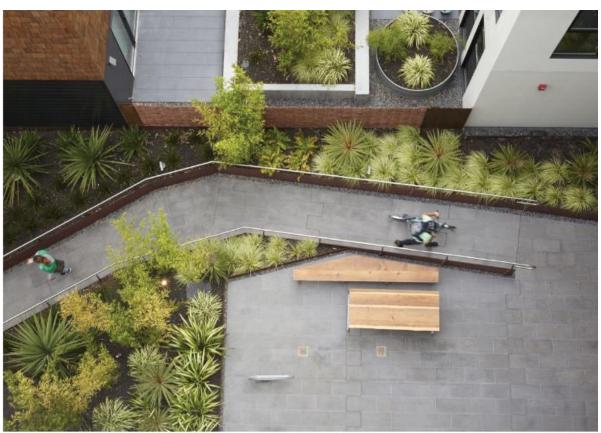

# Courtyard

Raised courtyards are designed to provide a variety of experiences ranging from community gathering spaces to private reading nooks. Planting native to the region will be selected to minimize irrigation and connecting residents to Memphis's ecological history. Soft, warm lighting will illuminate the courtyards at night so that residents may take advantage of pleasant summer evenings. Lighting across the project will be designed to minimize light pollution while accommodating the desired use.

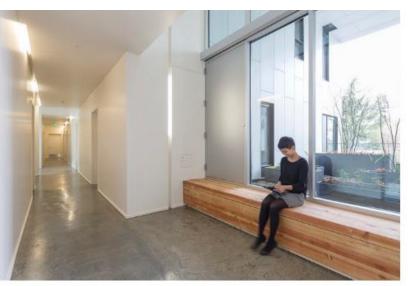

CUC+

# Commons

Common spaces will be located to allow for convenient access for residents. In many cases the commons will be integrated or adjacent to partnering "coffee shops" or coworkspaces providing convenience and practicality. Designs for common spaces will be simple and stress-free, offering efficient access to daily needs as residents leave and return home

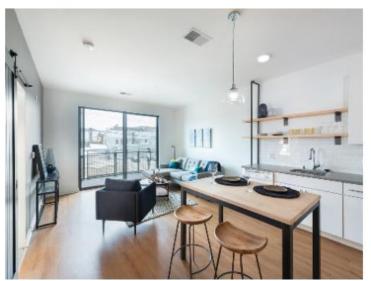

CUC+

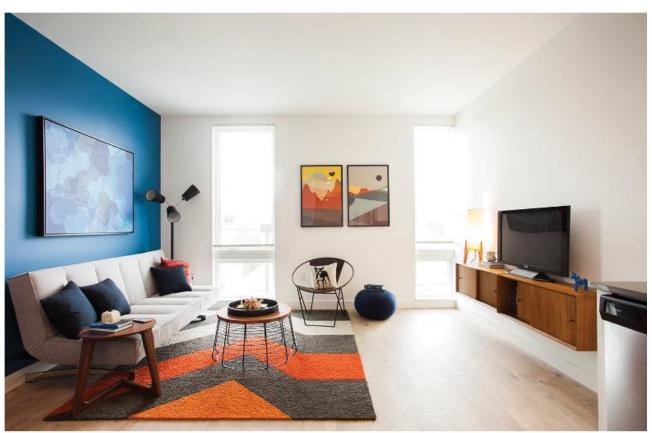

# Interiors

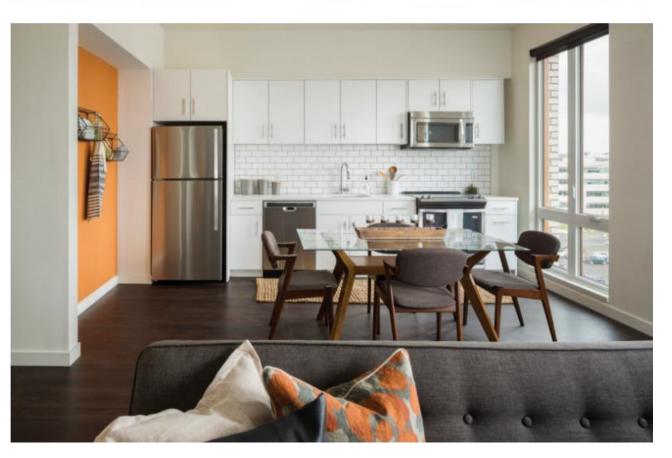

Apartments will be designed to accommodate a modern lifestyle while delivering timeless comforts and spatial organization. Simple colors and natural textures will act as a backdrop for a variety of design styles. Large windows, access to outdoor spaces, and balconies will provide fresh air, daylight, and views to the Downtown skyline.
