APPENDIX I: EIG APPLICATION

Date of Application:	July 15, 2021			
Building/Property Address:	629 Monroe Ave., Memphis, TN 38103 - Premiere Palace Ballroom			
Applicant's Name:	Premiere Contractors Inc.			
Name of the Business:	Premiere Contractors Inc			
Ownership Status:	■ I own the property □ I am purchasing the property □ Other			
Primary Project Contact:	Name:Emily Todd Dowdy			
	Phone: 901.650.8333 Email: emily@stop345.com			
	Mailing Address: 629 Monroe Ave. or 1388 Melrose Sove, Memphis, TN 38106			
Describe the existing	629 Monroe Ave. was originally home to Souther Motor Co, a Cadillac			
condition of the property.	dealership in the early 20th century. Over the years to transom windows have been covered up, the limestone architectural detail on the parapet wall is in need of repairs, and the masonry requires serious tuckpointing and stabilization. The sidewalk needs replacement and regrading. The existing retails windows need to be replaced with high efficiency low-e glass.			
Describe the proposed future use of the property.	629 Monroe, which is fixated in the heart of the Edge neighborhood, will continue to house offices for Premiere Contractors and Robin Redd as well as serve as a licensed party rental facility. The rear workshop is used by Robin Redd, an architect, to fabricate her custom cabinetry. The main floor ballroom and upper mezzanine are utilized for party rental. The offices upstairs are utilized by Premiere Contractors but will soon become a lounge and preparation space for events. We are not closed off to the idea of a future tenant; however, with the neighborhood parking situation in flux, now is not the time.			
What exterior improvements do you plan to make to the property?	The improvements we are seeking to make would reactivate the transom windows, further increasing the visibility at the heart of the Edge (where Marshall meets Monroe); regrade and repair the sidewalk (replace with 3500 psi limestone concrete) in front of the building / redo the black stain treatment if the budget allows; tuckpointing and stabilizing the original masonry work (ca. 1919), restore the limestone architectural detailing; add new lighting on the window sashes to add up/down illumination; pending design aesthetic - complete the coverage of the awning and add LED puck down lights to illuminate the sidewalk and enhance pedestrian experience; repairs to the marquee sign / convernt to LED; landscaping along sidewalk and hanging from the awning; add water access to the front of the building to maintain landscaping and provide additional access to Block By Block so trhey can continue to maintenance and beautify neighborhood landscaping (Edge Connectivity 3.0)			
Architect (if applicable)	Name: Phone: Company:			
Total Project Budget:	\$194,500			
Total Grant Requested:	\$80,000.00			
Property Owner:	Name: Premiere Contractors Inc Mike Todd			
(If not the applicant)	Phone: 901.650.2112 Email: mike@stop345.com			
	Mailing Address: 629 Monroe Ave., Memphis, TN 38103 / 790 E Snowden Cir., Memphis, TN 38104			

Disclaimer:	The CCDC, DMC, and its affiliates are not responsible for business consulting, planning, design, or construction of improvements to property that is owned by the applicant or any other entity. No warranties or guarantees are expressed or implied by the description of, application for, or participation in the Exterior Improvement Grant. The applicant is advised to consult with licensed architects, engineers, and/or building contractors before proceeding with final plans or construction.

Applicant's Certification:	This application is made in order to induce the CCDC to grant financial incentives to the applicant. The applicant hereby represents that all statements contained herein are true and correct. All information materially significant to the CCDC in its consideration of the application is included. The applicant acknowledges that it has reviewed the descriptions of the CCDC financial program for which it is applying and agrees to comply with those policies. The applicant shall also be required to show best faith efforts with regard to the employment of minority and/or women contractors and subcontractors in the project development. The applicant specifically

Application Attachments

In addition to this completed and signed application, include the following attachments when you submit your grant request:

O Required Drawings and Exhibits

Work with CCDC staff to determine which of the following application materials are necessary for your specific project:

- o Architectural drawings, including dimensions and materials listed
- Rendering or sketch of proposed improvements
- o Current photo(s) of the subject property
- Color and material samples for paint, awning, signs, etc.
- Sign plans, including dimensions/measurements and materials listed
- Other information and drawings as deemed necessary by staff

O Estimated Costs & Bids

- Complete Sources and Uses Statement (Attachment B)
- o If requested by DMC staff, provide copies of vendor bids / estimates

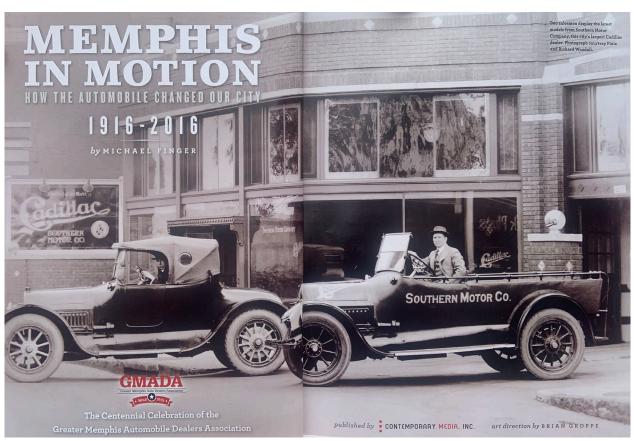

O Project Timeline

List estimated dates to begin and finish construction

References

List three credit references.

Masonry repairs / tuckpointing will be completed along with structural reinforcement. All masonry joints will be ground minimum of 1"-1 1/4" on substantial majority of facade. Parapet cap, limestone "diamonds," and various decorative limestone architectural features will be repaired or replaced, to match original construction, as feasible.

18"H Black and Aluminum LED wall mount pocket light with up and down dispersment- Placement will differ slightly w/ transoms (Typical @ window sash division)

New hanging plants and improved landscaping in the front. Perhaps sidewalk planters

Explore covering the awning and adding LED down It to illuminate the sidewalk at night. Based on aesthetic and budget factors during construction.

Entire sidewalk will be removed and replaced w/ 3500 psi limestone concrete. If budget allows we will possibly stain and apply feaux treatment to concrete walkway.

All windows will be tdouble paned, low e glass with solid vinyl sashes. (To mimic historic style of the original building in scale and general layout / will improve energy efficiency).

Water spicket for landscape maintenance.
