

NEW HAPPENINGS

DEMOLITION OF 223 23RD STREET

Starting November 2021, JBG SMITH will begin demolition work at 223 23rd Street. This exciting project may create changes for our everyday pedestrian and vehicular routines.

Here's what to expect:

- Due to the underground closure at the 23rd Street entrance, pedestrians should use the Crystal Drive access at 2200 Crystal Drive.
- All retailers will remain open during this project.
- The G1 level of the garage entrance at 223 23rd Street will be closed.
- G2 is open for parking, but there will be a drive lane to access the garage under 2221 S.Clark St.

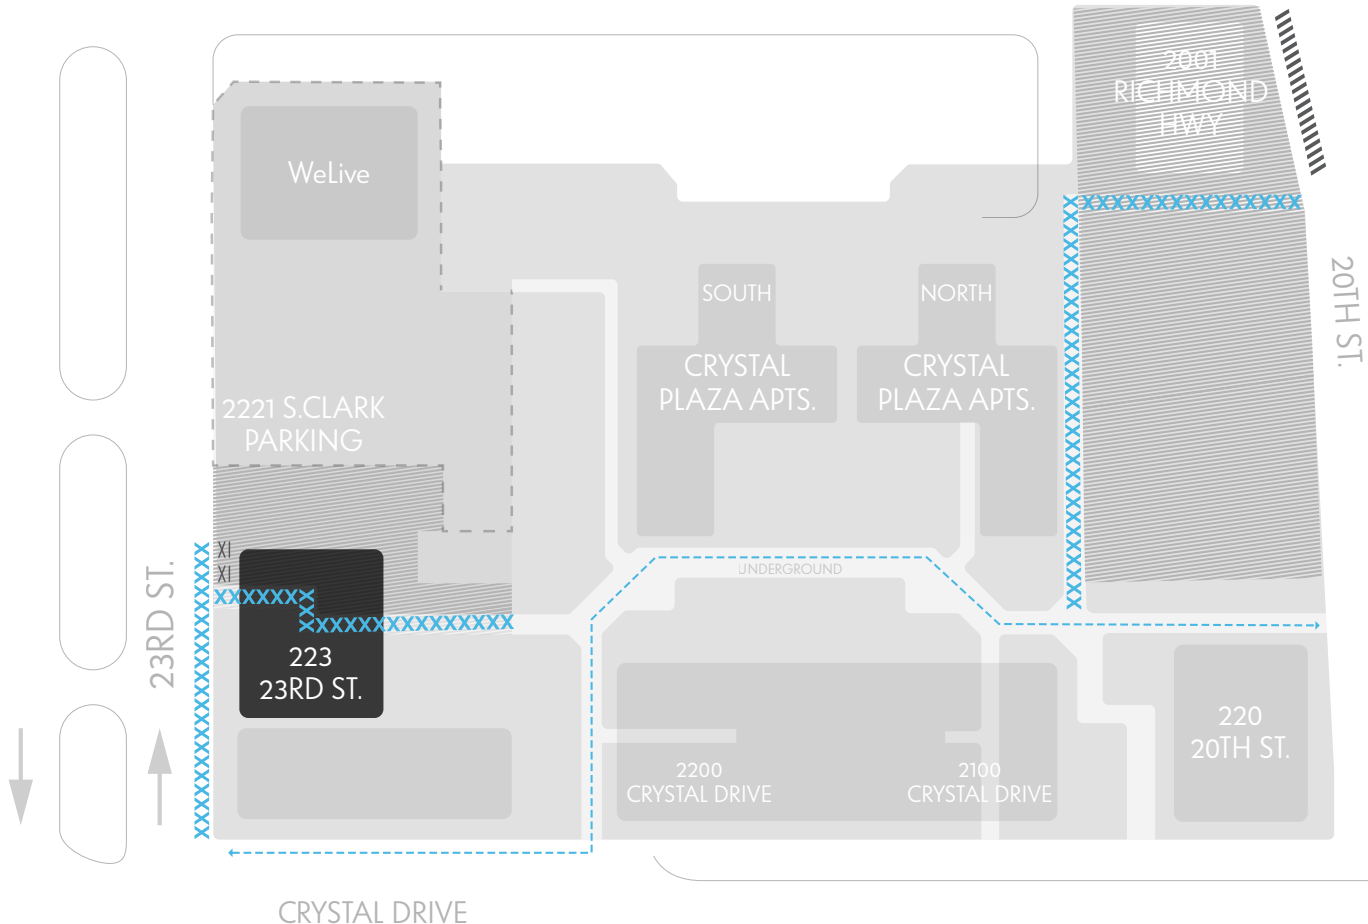

Please reference the map herein for more detailed information regarding the closures.

We appreciate your patience while we continue with the exciting transformation of National Landing. Please reach out to JBG Smith at 2250-223@jbgsmith.com with any questions.
